Sonic Visualiser

- A program for inspecting and annotating the contents of music audio recordings
- A testbed and framework for audio feature extraction methods (provided as Vamp plugins)
- A visualiser and analyser, with spectrograms, time-stretcher, segment looping, auto-alignment between tracks, and other helpful inspection utilities

Visualisation using SV

- Waveform
- Spectrogram
- Audio-tofeature transforms using Vamp feature extraction plugins

Estimate the key of the music using "Key" output of "Key Detector" plugin (from Queen Mary, University of London)

Annotation and Creation

- Manual annotation of points
- Flexible multi-selection by snapping to automated or manual feature positions
- Play, loop, time-stretch, export multi-select regions
